Who Invented Sliced Bread? - HISTORY Sliced bread, however, has been around for less than a century. The first automatically sliced commercial loaves were produced on July 6, 1928, in Chillicothe, Missouri, using a machine invented by Otto Rohwedder, an Iowa-born, Missouri-based jeweler. Rohwedder's quest to make sliced bread a reality was not without its challenges. Sliced Bread: The History of How It Became "The Best Thing ... When sliced bread hit the market, American consumers weren't sure just how great it was. On this day, July 7, in 1928, a bakery in Chillicothe, Mo., was the first to sell pre-cut bread using Otto Frederick Rohwedder's invention: the automatic bread-slicing machine. Sliced bread - Wikipedia Sliced bread is a loaf of bread that has been sliced with a machine and packaged for convenience. It was first sold in 1928, advertised as "the greatest forward step in the baking industry since bread was wrapped". This led to the popular phrase "greatest thing since sliced bread."

Bread-slicing Machine | National Museum of American History This commercial bread-slicing machine was designed and manufactured in 1928 by Otto Frederick Rohwedder (1880-1960). It was used to slice loaves of fresh bakery bread at Korn's Bakery, in Rohwedder's home town of Davenport, Iowa, beginning in late 1928. Bread: A Slice of History: John Marchant, Bryan Reuben ... Bread plays an important role in the folklore, culture, religion, and politics of residents of wheat-growing countries. It symbolizes fertility, prosperity, and protection against evil, and provides healing and consolation in times of hardship. The History of That Great Invention, Sliced Bread In 1930, Wonder Bread began to commercially produce pre-sliced loaves of bread, popularizing sliced bread and making it a household staple familiar to generations. Soon other brands warmed to the idea, and for decades there has been row upon row of sliced white, rye, wheat, multigrain, rye and raisin bread on grocery store shelves.

Bread Slicer History - Invention of the Bread Slicer History was made on July 7, 1928, when bread was sliced and wrapped commercially for the first time by a bread slicing machine. For the record, the brand name was Sliced Kleen Maid Bread. Customers marveled at the evenly sliced pieces, which were handy for making sandwiches and toast. A Brief History of Sliced Bread | Mental Floss Apart from that slight hiccup, sliced bread has been in our lives for 85 years. These days, we hardly think about the convenience of it; a sandwich or a slice of toast can easily be at our fingertips. And the next invention that proves to be "the greatest thing since sliced bread" may be just around the corner. A Slice of History: Pizza Through the Ages - HISTORY Debates over the finest slice in town can be heated, as any pizza fan knows. But Mariani credited three East Coast pizzerias with continuing to churn out pies in the century-old tradition: Totunno's (Coney Island, Brooklyn, opened 1924); Mario's (Arthur Avenue, the Bronx, opened 1919); and Pepe's (New Haven, opened 1925).

History of bread - Wikipedia Bread-baking was industrialised at the start of the 20th century. Otto Frederick Rohwedder developed a prototype bread-slicing machine in 1912, and a practical machine that both sliced and wrapped bread in 1928. An automated bakery with industrial robots palletizing bread, Germany.
